The readers of THE CAUCASIAN will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength, by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure.

Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists at 75 cents.

## THE LIME KILN CLUB.

The Reason Moses Taylor Was Driven.

What Gravitation Is.

The secretary announced a communication from a Mrs. Moses Taylor, of Lexington, Ky., who announced that her husband had been driven from his home and was now on his way to join an application for membership in the club. She had been advised by a colored justice of the peace to demand \$5,000 from the club as damages, it being plain as the nose on a man's face that if Moses had not decided to join the club he would not have been driven. If the money was not forthcoming she would bring suit for double the amount. The following communication dated from New York was then read:

Bro. Gannex: I am "gravitating" toward Detroit with my great lecture on "Gravitation." I have an open door for May 1st and would be pleased to arrange with the Lime Kiln Club for this date. Terms, \$500 (O. P.) which includes printing, advertising, heat, light and incidentals. The club may fix the price of tickets and not a handsome sum. This is an opportunity that you cannot afford to let pass. So early reply will favor yours truly. Yours, C. A. Johnson.

"I move that de terms be accepted," said Samuel Shinn as soon as the reading was finished.

Brother Shinn, do you know what you are talking about? demanded the president in severe tones. "So right down an keep mum or I will fine you ten million dollars for disturbing the meeting." Now, den, who is Mistal Johnson? What are you gravitating about? We want him to lecture! We do not care at any price! The secretary will answer him to de effect to keep away from De toit at his peril!"

"I suppose de club knows what gravitation is," quipped the Rev. Penstock as he rose.

"De club does, Brother Penstock," sharply answered the president. "Dis club has made a special study of gravitation. All dar is to it is de fact dat de club has decided dat air will come down, de club is de leader de dar, S. A. down, Brother Penstock, sot down!"

A phrenologist was giving an object lesson on the word "transparent."

She told the children that water and glass are transparent because one can see through them and then asked them to name something else that is transparent. One little fellow raised his hand in great ecstasy. The teacher said: "Well, Harry, what is it?" "A hole," shouted the boy.—Philadelphia Press.

L., the other day, a man came to town and bought a complete funeral outfit—casket, plate, gloves, etc. When the clerk was engraving the plate he asked what date should be put upon it. The road will open up a vast region now almost destitute of commerce.
